“

TEG is the absolute best. I've never worked with any one better.

The team delivered three finalists, any of whom I would've hired. They have the deepest network — and their understanding of our company and what I need is amazing.

TEG's access to tech leaders sets them apart, and in a big way.

We've used them many times because of that specialized expertise and will keep doing so. The diversity of the slate was superior too.
